Candice is an award-winning Australian author. She has published 13 books for children, and written one for adults and her books have been published in Australia, the US, the UK and China. Her quirky style, fast-paced narratives and originality appeal to young readers in particular.

Candice loves wildlife and animals and has always been surrounded by a range of pets throughout her life, including dogs, cats, rabbits, fish, birds (including a duck) and various lizards. She was first moved to write her latest series, **Eco Rangers**, after helping with a couple of koala rescues from her own backyard. The first book **Eco Rangers: Pelican in Peril** was an Honour Book Award winner in the Green Earth Book Award and her second book **Eco Rangers: Microbat Mayhem** was shortlisted in the [Wilderness Society's Environmental Award for Children's Literature](#). She continues to be inspired by her own children, who love and care for nature and wildlife. A trained wildlife carer, Candice enjoys writing about the adventures of the young Eco Rangers, Ebony and Jay. It is her second book series.

The first, **Jake in Space**, a six-book series of space adventure stories about turbo space cars, hurtling asteroids and evil villains, also with New Frontier Publishing. You can visit the website [here](#).
