

# Kurwongbah Kids PLAYGROUP

## Gluing Skills

Our morning was filled with lots of movement in the Prep Playground. The sandpit was a popular spot where digging and pretend cooking was in an abundance. The children were happy to play on the playground equipment, chasing and climbing. At our indoor play, we had activities to practise using glue sticks correctly. The learners could create a butterfly, glue together a Christmas Tree Decoration and/or create a Christmas bauble to hang. Lots of happy learners left the Sports Hall with smiles and bright creative items.

## Last Playgroup Session for 2022

Our last KSS Playgroup for 2022 was a popular one. There were lots of happy, Christmas-dressed learners joining in with the activities today. The weather allowed us to have one final play in the Prep Playground before we moved up to the Sports hall for inside activities. The young learners were able to move around the hall completing Christmas activities and making friends for the final time before they moved into Prep. Mrs Krogh organised a lovely cake to share at our morning tea. We were, also lucky to have a special visitor join us – Santa.

He helped to wish all of our families a lovely holiday and gave a small gift of appreciation to our young learners.

Happy Holidays
