

Kurwongbah Kids PLAYGROUP

Week 4 – Heavy or Light

Kurwongbah Playgroup had a wonderful day on Friday. There were little learners everywhere enjoying the sunshine and the obstacle course that was set out in the Prep Playground. Our learning was centred around the science concept of heavy and light. The Playgroup attendees were able to create a coat hanger scale and explored different scales. We pampered our mothers during this session as well. There were a lot of Mummies who had their nails painted, hair brushed and their hands massaged. We hope all our Mummies enjoyed their special day on Sunday. Lastly, our Kurwongbah Playgroup had a picnic lunch outside in the sunshine which was exciting as we finished with our songs and story.

This week, Kurwongbah had a visit from Goodstart Petrie. The centre organised 11 young learners of 4 to 5 years old to walk up to our school and engage with our Playgroup activities. Miss Megan, Miss Ashley and a parent helper were presented and they were pampered by the children that attended on this day. The students enjoyed the different environment where they could access the Prep Playground and visit the big school. We look forward to our next visit from Goodstart.

Week 5 – Magnets, Special Guest – Mrs Owen.

This week our Playgroup had a special guest, Mrs Owen, our Year 2 - 6 Science Specialist Teachers. Mrs Owen brought along an experiment that was iron fillings inside, recycled soft drink bottles which were filled with water. The children used magnets to drag up the fillings to create unusual shapes and patterns from the magnetic connections. The other activity with magnets involved building a tall tower with blocks that had a magnet to attract onto other magnetic blocks. Mrs Owen, we thank you for your visit today. Our Playgroup's craft items today involved making a bookmark with a small magnet to close over the pages and using a washer with paint to move with a magnet to create a painted image. The young learners engaged with many independent activities that had the magnets as their focus. A lovely morning was held with our Kurwongbah Playgroup today.
